

PREFACE

This is a special issue celebrating 30 years of *Manuscrito*. It collects some of the most important papers originally published in the journal since 1977, and reflects the diversity of areas and philosophical traditions covered by it. The issue is dedicated to the founder and first editor, Oswaldo Porchat Pereira (who was also the creator of the Center for Logic, Epistemology and History of Science (CLE) at the UNICAMP) and to those who followed him as editors, Marcelo Dascal (1983 to 1998) and the late Michael Wrigley (1999 to 2003). Their effort and passionate dedication were fundamental for consolidating *Manuscrito* as one of the most important philosophical journals in Latin America.
